Bodytext / Typical Helvetica

The 'body matter' is the group of pages that contain the body of the text of the book. The front matter comes before it, containing title pages, content lists, publisher's metadata etc. It is followed by the back matter, which includes appendices, references, credits, colophon etc.[2] The distinction between the parts, body and other, is that the body matter is produced by the author, the front and back matter by the publisher (through the book designer, index collator etc.). Where there is a prose introduction, it demonstrates this; an introduction by the author is considered as body matter, an introduction by an editor or other commentator is placed with the front matter.[2] In some technical publications, appendices are so long and important as part of the book that they are a creative endeavour of the author, rather than a mere collation exercise by the publisher. In this case they may, like the introduction, be considered as a part of the body matter.

At one time, books were produced as 'letter-books',[3] where the body of text consisted of chapters of solid text, unillustrated. Where illustrations were provided, these were costly and so plates were inserted in sections, either at the end of the body matter, or grouped within the signatures. Development in printing in the early 20th century, and particularly developments in newspaper design and the incorporation of photographs, encouraged the development of the 'picture-book'[3] where images were mixed in the text and formed part of the body matter itself[3] (although in most cases this was still outside the para-

One Hundred Years of Solitude

Gabriel Garcia Marquez, Gregory Rabassa (Translator)

One of the most influential literary works of our time, *One Hundred Years of Solitude* remains a dazzling and original achievement by the masterful Gabriel Garcia Marquez, winner of the Nobel Prize in Literature.

One Hundred Years of Solitude tells the story of the rise and fall, birth and death of the mythical town of Macondo through the history of the Buendía family. Inventive, amusing, magnetic, sad and alive with unforgettable men and women—brimming with truth, compassion, and a lyrical magic that strikes the soul—this novel is a masterpiece in the art of fiction.

Few memories of reading a book can match the sweetness of the warm spring day while at university when I sat in the grass down by a river and began Gabriel Garcia Marquez's masterful *One Hundred Years of Solitude*. The novel gripped me immediately and I followed the myth-like tales of the Buendía family and the fictional town of Macondo across multiple generations until the sunlight had vanished, the sound of the river adding an idyllic rhythm to my reading that made me keenly aware of the passage of time the idea of one thing flowing into the next. This novel truly is a tour de force earning its ... [more](#)
